Energy Data

Attributes

- timestamp: String
- sourceType: SourceType.SourceType
- energyData: Map[String, List[Double]]
- unit: String

Operations

- def getTimestamp: String
- def getSourceType: SourceType.SourceType
- def getEnergyData: Map[String, List[Double]]
- getUnit: String
- isEmpty: Boolean
- calculateStatistics(): Map[String, Map[String, Double]]

Statistics

Operations

- mean(values: List[Double]])
- median(values: List[Double]])
- mode(values: List[Double])
- range(values: List[Double])
- midrange(values: List[Double])
